Subject: DPCAAC tree planning comments 21/03/21

Dear Planners and Tree Officers,

I can't comment as fully as I would like as 'camdocs.camden.gov.uk' is currently unavailable as is 'site unavailable' in some of the applications.

List 624
2021/0824/T
17-19 Dartmouth Park Avenue
No objection

2021/0885/T
48 Woodsome Road
I know this tree well, it was a Christmas tree planted by the previous owner. It does have amenity value and acts as a privacy and light screen to the residents in Croftdown Road. Could it please be reduced in height, rather than fell it? I know it is difficult to prune conifers, but we don't have that many in our CA. If you do decide to fell it, please can you insist that it is replaced by a suitable native tree?

2021/0960/T
48 Woodsome Road
No objection to shaping and/or height reduction in this Bay tree.

List 625
2010/1055/T
Due to this Red Chestnut's extensive decay in its trunk and huge canopy, I don't object to its felling for safety reasons. (So sad to see its new season's 'sticky buds'). Please can it be replaced with a native tree?

Thank you,
Stay safe,
Eileen
