2021/0756/P	Gautam barua	17/03/2021 12:25:55	COMMNT	Hello dear I don't object to it and I support it

2021/0756/P	Elyahou Nathan	18/03/2021 18:32:24	COMMNT	I fully support this planning application. We all need extra space due to working from home and spending long hours there. It will be less of a hassle to extend upwards than having to move the whole family into a bigger house.
-------------	----------------	---------------------	--------	--

2021/0756/P	Deborah	17/03/2021 23:27:28	SUPPRT	We are in favour of this application. It is in line with the new PDR policy. It really helps families stay in the area by giving much needed space. This is particularly useful given increased working from home. The design is sympathetic to the surrounding area. Strongly in support.

2021/0756/P	Nathan Nathan	18/03/2021 18:40:01	SUPPRT	<p>22 Quickswood is next door to my house. I fully agree to adding an extra floor and plan on applying myself. The proposed extension will be in keeping with the existing design of the house and will create the much needed extra space for the family. There is a shortage of affordable homes in the area and it will be cheaper and much less of a disturbance by building up than building down.</p>
2021/0756/P	Chris Blackburn	18/03/2021 10:24:52	SUPPRT	<p>I am a resident of this sector of Chalcot Estate and fully support this application.</p> <p>I think that this, and similar applications in the Chalcot Estate, are a fantastic idea. They allow families to get much needed space, for example to allow growing children their own bedrooms. One of the longer term implications of COVID for many is a requirement to work from home, even post-pandemic. This alone often require two extra rooms where both parents work. Such extensions allow families to get the extra space they desperately need. It is quite selfish for those who do not need the space themselves (usually because they live in a 2-person household) to seek to deny this to others who do desperately need the space.</p> <p>Strict Permitted Development rules ensure that all extensions are consistent, will be built in the same materials as the rest of the estate and indeed look like they were built at the time of the original construction. In any case, the sector contains 2, 3 and 4 story building already - that being the architects original vision.</p> <p>We must all do what we can to help our badly damaged economy recover. The government explicitly intends the recent change in planning law to help revive our economy; creating demand and jobs. Upwards extensions such as this will provide badly needed economic activity, jobs and taxes - precisely when most needed.</p>
2021/0756/P	Aviad Kobrin	15/03/2021 10:58:14	COMMNT	<p>We own 73 Quickswood which is the property opposite 22 Quickswood. We are in support of the application. Parliament clearly intended to allow upward expansion on such properties when relaxing planning legislation last year. Upward expansion will allow the estate to evolve and expand by allowing current families to expand their dwelling as families grow especially with the anticipated mixed work from home environment.</p>
