2021/0348/P	Roma Fernandez	21/03/2021 12:06:13	COMMNT	<p>My concerns are that this appears to be a significant structural alteration to the front of the property which could destabilise the property.</p> <p>This is a conservation area and I understand the external appearance of properties should not be altered, so they remain in harmony with other houses in the street. The other houses retain their basement entrance at the side not centrally.</p>
