2021/0756/P	Helen Janecek	22/03/2021 16:13:47	OBJ	As a nearby resident of the Quickswood sector of the Chalcots Estate I object to this planning application on the grounds that no assessment has been undertaken of the impact on rights of light to neighbouring dwellings. It is unclear whether an engineering assessment has been made of the ability of the foundations to support an additional storey. The proposed extension to this property would detract from the architectural integrity of the terrace of which it forms part.
2021/0756/P	Gary D.	23/03/2021 21:48:46	SUPPRT	My wife and I support the request. First, it falls in line with Government intention, as reflected in recent revised planning law. Second, we believe it is reasonable approach in line with modern way of living, and especially in the heels of a post-Covid world where working and learning - from home is to become a norm. Embracing this, and similar requests, will contribute to the well-being of the Quickswood community.
2021/0756/P	Fatos Akbay	19/03/2021 11:19:18	SUPPRT	In a world where everyone needs more space, working from home and taking care of elderly, i see no reason why we wouldn't let people extend their living spaces so long as it is done tastefully and in line with the architecture of the Estate. I am definitely supportive as a neighbour.
2021/0756/P	Michael Citron	19/03/2021 10:14:53	SUPPRT	I fully support this application as this will be beneficial to the owners of the property
2021/0756/P	Michael Citron	22/03/2021 22:47:01	SUPPRT	We(as neighbours) support building one extra storey to the adjacent house . It appears to be a reasonable plan and will not cause harm to our enjoyment of our property. It will create more space for family use and for home working in the future.
2021/0756/P	Amanda and Kenneth Elliott	21/03/2021 16:37:45	OBJ	The Quickswood sector of the Chalcots Estate is a unique, well-preserved, example of 1960s/70s architecture, providing an open and attractive place to live. It is of special character and makes a contribution to Primrose Hill as a desirable area in which to live. The fact that it has to date been preserved in its original state is an important part of its attraction. Random additions by way of additional storeys would ruin it visually and 22 Quickswood is right in the centre of the estate on the end of a small terrace of identical two-storey houses; an additional storey on just one of them would be a complete eyesore.
