2021/1260/T	Barbara Abraham for The Belsize Society	24/03/2021 10:16:31	COMMNT	The Corkscrew Willow is a mature and distinctive tree in a road that does not have abundant trees and the removal of this tree will have a detrimental effect on the streetscape. Judicious pruning should be considered in preference to removal, with removal only as a last resort.
