Drawing Nos: Toilet 25 FMH drawings and data sheets

The Council has considered your application and decided to grant Listed Building Consent subject to the following condition(s):

#### **Conditions And Reasons:**

- 1 The works hereby permitted shall be begun not later than the end of three years from the date of this consent.

Reason: In order to comply with the provisions of Section 18 of the Planning (Listed Buildings and Conservation Areas) Act 1990.

- 2 The development hereby permitted shall be carried out in accordance with the following approved plans:

Toilet 25 FMH drawings and data sheets

Reason: In order to safeguard the special architectural and historic interest of the building in accordance with the requirements of policy D2 of the Camden Local Plan 2017.

- 3 All new work and work of making good shall be carried out to match the existing adjacent work as closely as possible in materials and detailed execution.

Reason: In order to safeguard the special architectural and historic interest of the building in accordance with the requirements of policy D2 of the Camden Local Plan 2017.

Informative(s):

- 1 The application site is a 1933 grade-II\*-listed freemasons' headquarters building making a positive contribution to the Seven Dials Conservation Area.

The applicant wishes to restore a disused suite of urinals, lavatories and basins that were harmed by the insertion of one of two bridges from one side of the courtyard to the other, which consumed about 1/3 of the interior space behind a part-height blockwork wall, which rises as far as the frieze. The impressive urinals have been encased in a timber box as has the central bank of ornate washbasins.

The urinals will be restored and brought back into use, while the central bank of sinks will be moved closer to the new wall, to remove an awkward space, and restored. A bank of four redundant sinks by the wall will be replaced with a shelf and put into store.

Where items are set to be replaced, the applicant has a stock of previously salvaged original components from elsewhere in the building to call upon.

The proposed works will not harm the special interest of the grade-II\*-listed building.

The application has been advertised in the press and by means of a site notice, whereby there were no consultation responses. HE has supplied a letter of flexible authorisation ratified by the NPCU. The site's planning history has been taken into account in making this decision.

Special attention has been paid to the desirability of preserving the special interest of the listed building, under s.16 of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013

As such, the proposal is in general accordance with policy D2 of the Camden Local Plan 2017. The proposed development also accords with the London Plan 2016 and the NPPF.
