Details of the pre-application advice received

Advice received on 19/05/2020. Details of the advice received and our response to it is detailed in the D&A (ref. PROV_Heritage Design and Access Statement).

Advice about the lower ground and first floor works was mainly regarding the legibility of the original floorplans, including maintaining key nibs and the proportions of the rooms. The proposed single-storey rear extension, which was larger than what is currently proposed, was received well as visually lightweight and sympathetic to the architectural character and age of the host building. No objections were posed to the changes to the first floor. The enlargement of the dormers was not objected to, but it was advised that they should be two separate dormers. The roof covering over the side passage was also accepted as there are various precedents along the street. Advice was also received about a front basement extension, which is no longer proposed in this planning application.
