2021/1436/T	m green	06/04/2021 10:30:34	OBJ	strongly object to all options provided on this application. reduction by 3 meters may as well kill off both trees in question. there is no verification on this application/ proof that the drastic measures should be taken. please refuse this application. our green ca is under great threat of loosing its green credentials by the accumulated fellings of many of its veteren trees and will forever take to plant and grow further trees!
