2021/0598/P	James Green	08/04/2021 12:28:20	OBJ	<p>Objection to mast development.</p> <p>I am the owner of Flat 3 Crestview Appartments and members of my family live in and use the flat and wish to retain the peace, security and value of the flat that we currently enjoy. Thank you for allowing this forum for objections to the the mast development.</p> <p>My objections are:</p> <ul style="list-style-type: none"> - inappropriate development in a conservation area next to a listed Church Building - concerns over safety and stability of the Crest View flat roof to support the large mast developments - concern over potential invalidation of our roof guarentee and insurances - disruption to daily life for installment and continued maintenance and access to building - increased security risk and COVID riski to inhabitants by outside unknown "visitors" to attend the mast development and ongoing maintenance - following installation disruption likely vibration/noise from the masts in a highly resonant concrete building which would affect quality of daily life - likely decrease in property value and willingness of family to use the flat due to the combination of the above. <p>Thank you for your consideration.</p> <p>James Green (Crest View Flat 3 Owner)</p>
2021/0598/P	Michael Way	08/04/2021 18:16:23	OBJ	<p>Antennae would be a major eyesore on one of the highest points in the area. G5 will be a major asset, but not at the expense of the environment. Other solutions have to be found to site such equipment. And I'm not one of those who believe the signals could be harmful.</p>
