2021/0814/P	David Offen	11/04/2021 19:18:00	OBJ	The further felling of trees is to the detriment of the nature of the square and against the TPOs on 2 of the trees and should not be permitted. I lived in the square for nearly 20 years and still own property there, the attraction of the square as a green area needs to be protected especially in the current environment where more trees are rightfully being planted using camden tax payers money.
2021/0814/P	Eser Torun	11/04/2021 21:46:09	OBJ	While I am waiting to hear in regards to my questions above, I have been informed by several neighbors today (who know the current set up) that this 'non-essential' construction work is planned to create extra space and conduct extra classes in the Synagogue which will significantly increase traffic, noise, and the need for parking space in a very small and residential area. The current infrastructure wouldn't support this change, without a significant reduction in quality of life. As a long-term resident of the neighborhood, that's not desirable for us, therefore we would like to object.
2021/0814/P	Michael White	11/04/2021 19:26:00	OBJ	In addition to my previous comments, I now understand that this planning application contains seriously inaccurate information. The tree report it relies on fails to acknowledge that several of the trees the applicants wish to destroy are covered by tree protection orders. The report also describes the trees as in poor condition. They are in fact immature replacements for trees the applicants have previously removed. The above reinforced my objection to the application.
