These houses are lower than the houses in Willes Road as they have semi-basements. All the Inkerman Road houses have extensions of one or 2 floors. The rear infill extension proposed to 38a Willes Road will almost be the height of the Inkerman Road terrace houses and will also protrude beyond the back of them similar to a 3 floor extension which none of the houses around have. Even though this infill extension to the present roof terrace would not protrude further than the present terrace, I am concerned that it could reduce sunlight to our gardens, and also set a precedent allowing 3 floor extensions which would seriously effect light etc to other properties.</p>
