Details of the pre-application advice received

The proposed additional storey and mansard roof extension would be in keeping with the appearance of the host building and would likely be acceptable in principle at the application stage. It is recommended that they are revised to a more traditional design that is sympathetic to the fenestration on the floors below. At the rear of the building, the proposed extension would be considered unacceptable at the application stage and would likely be refused. The large amounts of glazing and sheer storey are considered unacceptable.
