Details of the pre-application advice received

The pre-consultation invited comments within a two-week period and while the merits of high-speed telecommunications are generally recognised; pre-application has identified the need to carefully consider the risk of increased visual amenity to adjoining residential properties through the siting of telecommunications infrastructure within urban settings.

An e-mail was sent to the planning department at Camden Council on the 09th June last year. The communication included a set of planning drawings, site information sheet and an explanation behind the requirement for a new telecommunications installation. The ward councillors for the local area were also included within the communication. A response was subsequently received from one of the councillors who provided the following comments:-

"Thanks very much for your email and for this pre-consultation notice.

I do appreciate the need to install new masts for a better connectivity (and living in that area I also appreciate that this will bring direct benefit to myself), but I have to object very strongly to the installation of a stand alone mast on the pavement outside the park. This would be an eye-sore solution, totally unacceptable in the Conservation area.

I know that this site has been tested for various installation (last one for electric bike hangars) but it was always deemed inappropriate. I appreciate the area is small, but I strongly recommend you to find an alternative and less visible solution (maybe on the roof of a building)."

The height of the installation was initially proposed at 20 metres and has since been reduced to a height of 18 metres. Furthermore and as shall be explained in more detail, a number of other locations have been investigated and discounted.

To the best of my knowledge, no formal response was received from the planning department in respect of the proposed scheme itself.

## 12. Declaration

I/we hereby apply for planning permission/consent as described in this form and the accompanying plans/drawings and additional information. I/we confirm that, to the best of my/our knowledge, any facts stated are true and accurate and any opinions given are the genuine opinions of the person(s) giving them. ☒
