2021/1788/T	S. Nix	15/04/2021 09:39:37	COMMNT	Have the stability and health of this tree been assessed by a tree expert? Saying the tree 'seems unstable and in danger of falling' is a subjective statement which should be qualified by an expert. The reasons submitted are neither strong nor valid enough without further input from experts to warrant felling of yet another tree in this area. Moreover, is the applicant proposing to replace this tree with another tree in the event the tree is felled?
