Informative(s):

- 1 Reason for granting listed building consent:

This application has been assessed without the benefit of a site visit.

The site is a second-floor flat within a grade-II-listed townhouse of the late 18th century, making a positive contribution to the Charlotte Street Conservation Area.

The applicant wishes to replace an existing decorative timber floor surface with a similar product.

The applicant has engaged a contractor who understands the sensitivities of listed buildings. The existing underlying structural floorboards will be maintained in situ and the new boards laid over the top of them in place of the existing modern surface. Where necessary, items will be scribed around. No doors or other fittings will be cut.

Any works other than those specifically mentioned in the consented documents are unauthorised. If further works are found to be needed, the permission of the council's conservation team must be obtained in writing, or further listed building consent may be required.

The proposed works will not harm the special interest of the grade-II-listed building.

The site's planning history has been taken into account in making this decision.

Special attention has been paid to the desirability of preserving the special interest of the listed building, under s.16 of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013

As such, the proposal is in general accordance with policy D2 of the Camden Local Plan 2017. The proposed development also accords with the London Plan 2021 and the NPPF.
