Hi,

I'm trying to access to the above planning application on your website but the pages just permanently hang. I'd like to make some comments/objections to the application - is there another way to register these?

I'd like to add the following objections:

The extension is to be built directly under my living room window. This will impact me in two ways:

- ∞ Instead of looking over a terrace and garden I will now be looking over a roof. A previous extension blocks the view to the right, with the view to the left also blocked by a large tree, so the extension will have the effect of boxing me in. The appeal of the properties on this road - and a reason I purchased - is the swathe of greenery running across the rear of the houses. My views will be seriously impacted by the new construction, which is detrimental to my enjoyment of my property. Generally, continuing to permit building/extensions on the street impacts the character of the area in my opinion.
- ∞ security has always been an issue in the area/my street, with break-ins common through the back gardens. An extension/roof just below my window will simply allow easy access to my flat through the large, easy-to-break-into sash windows to my living room. I have heavy security grids in other windows that also represent risks but installing on the living room windows will again serve to just box me in further.

I'd appreciate it if you could let me know how to add.

Kind regards,

Glen Mildener
