2021/0989/P	Richard Farr	28/04/2021 18:05:28	SUPPRT	<p>I like roof terraces as they add vibrancy and interest to urban spaces.</p> <p>I particularly support this application as it includes several environmental benefits.</p> <p>It is also important at this time that we provide as much private open space for relaxation as possible. This is a mental health and well being issue.</p> <p>The detailed design is modest and appropriate to the design of the host building.</p> <p>There should not be any objection based on the use as a roof terrace as this is ancillary to the principle use of the property. The Certificate of Lawful Development previously granted to numbers 7&amp;8 Oak Hill Park Mews confirm this point.</p>
