Subject: Re: Works to tree on conservation area

I live on the top floor flat 70 c,

I'm having difficulty logging on to the website to leave a comment,

I don't think it should be removed completely as I see lots of wildlife in both the trees and it's a really beautiful lovely tree that doesn't need to be cut down in my opinion, I live in a studio flat with no garden spaces, both trees are the only green I get to see and I love watching the wildlife that live in them and it's really good for that the trees and wildlife are there.

May I ask who wants cut them down?

Best wishes Jamaal
