Hi Tony,

Please note the attached additional detail drawing and revised other drawings. For the gate fixings I have shown 2 no plates with a simple gate hinge screwed to the existing masonry jamb. On the shopfront side I am proposing a discreet magnetic catch at floor level so that there will be no fixings to the shopfront. I have shown a new entryphone to replace the existing with a flush polished brass cover plate. The old fixings for the shutter box will be repaired.

Please let me know if you require any further information.

Regards,

Tim Godsmark BA(hons) Arch, Dipl Arch (dist), RIBA, WCCA
