2021/1810/T

Dear Mr Little

We object most strongly to the thought of cutting down 2 lime trees from the area between the flats off York Rise - Trevithick and Brunel. We have lived here since 1972, see them clearly from our back windows, and they are a haven for birds and give us great pleasure. They do not have canopies as they are regularly pollarded, and are not near any building, so we are baffled as to why there is a proposal to fell them.

Yours sincerely

Corinna Marlowe and Howard Rogers
