

Sky Garden London Wildflower Seed Mix

VGSDLW02

Technical Data

A specifically chosen and proven seed mix containing 36 species, to encourage Biodiversity on Extensive, Intensive and Podium Roof applications. This mix can be used throughout the UK, but has been designed to mimic the natural plant life that occurs in the South East of England, specifically in the London area.

Cast at 3 g/m² on to 75 – 150 mm contoured Sky-Garden Biodiverse growing medium.

Seeds are best sown in the late autumn or early spring months, allowing for sufficient warmth and moisture for optimum germination conditions.

These native plants are drought, wind and frost tolerant and will steadily colonize the roof area, to providing an even vegetative cover over time.

Physical Properties

Seed sowing	Best sown in late Autumn or early Spring months, allowing for sufficient warmth and moisture.
Substrate Depth:	Contoured depth between 75-150 mm
Unit Size:	Seed size according to species/genus.

Species

30 selected species are sown to form the London wildflower mix, including sedum and wildflower species. Please see overleaf for full species list.

Maintenance considerations

Cast at 3 g/m² on to contoured 75 – 150 mm sky-garden biodiverse growing medium. Seeds are best sown in late Autumn or early Spring, optimum seasons for sufficient warmth and moisture. Living roofs with good growing conditions will need annual maintenance for best results. This after-care will involve Spring weeding and Autumn strimming each year. Water substrate prior to sowing and irrigate during establishment for optimum results.

Specification Description

Sky Garden's London Specific Biodiverse Wildflower Seed Mix, contains 36 native species (36 Wildflowers and Sedums and no grasses) as a vegetation finish for use on Extensive and Intensive green roofs, podiums and landscaping projects. The species have been carefully chosen to provide a long flowering season from Spring to late Autumn, with a varied range of colour and habitat which is attractive to pollinators and in aesthetic appearance. Sky Garden's London Biodiverse Wildflower Seed Mix can be used to meet local and national Biodiversity Action Plans and BREEAM ecology credits.
