2021/1940/T	Yassaman Jahanshahi	03/05/2021 16:33:13	OBJNOT	<p>As one of the freeholders of 27 Lyndhurst Road I strongly object to the felling of the Cherry (Prunus)Tree. As this land is part of the conservation area I do not see the point of felling mature trees at all. The trees in the conservation area are important for the bio diversity of the area and felling them will cause an imbalance. What is the purpose of conservation when permission is granted time and again for felling of trees? This tree not only adds beauty to the landscape it also forms a barrier to people overlooking into each other's properties from across the gardens. A number of other trees have on previous occasions been cut and removed from this garden. I'm therefore lodging a formal complaint and do sincerely hope permission will not be granted. I would like to be informed of your decision. Thank you.</p>
