2021/0706/P	Richard Fletcher	03/05/2021 22:05:41	OBJ	<p>I wish to object to the the application made by 5 Belsize Park Mews. As noted in the report by Urban Building Surveyors, the figures produced in the application are unreliable, inaccurate and misleading. The bulk and height of the building to the south will give an increase in the sense of enclosure affecting amenity and well-being to 5A and 7A Belsize Crescent. Should LB Camden in the face of the summary 6 points made in Mr Bowden's report, then, approval of this application would represent a mockery of the planning regulations. Also the occupants of nos 5A and 7A Belsize Crescent have gone to the considerable expense of hiring a specialist light consultant to debunk the application, when it should be LB Camden doing it, or alternatively awarding costs against the applicant</p> <p>The application would be hugely detrimental to the amenity of 5A and 7A Belsize Crescent, represent over-development of modest mews accommodation and be detrimental to the mews area of the Belsize Conservation Area. It should be refused</p>
