2021/1023/P	Dr Rosemary Weinstein	04/05/2021 13:12:45	AMEND	<p>Pleased to see inclusion of security device . This would need to be attached to top of garden trellis at No 21, but security at rear still an issue for No 21(garden gate only here).</p> <p>Provision of guttering or other water run off needed on proposed extension to avoid discharge into alley of No 21.</p> <p>Proposed extension height appears to be at capital level (Drawing P2) well above the existing structure at No 25.</p> <p>As in a conservation area , would need to retain the freestanding jamb , railings and garden type wall which feature elsewhere in Willes Rd.</p>
