2021/1940/T	Christine Garabedian	04/05/2021 12:01:19	OBJ	I strongly object to the proposed works on the trees in the rear garden at 27 Lyndhurst Road. Their felling is totally unwarranted and unjustified in our Conservation Area. These trees should be protected and respected. They are stunningly beautiful. They provide nectar for the bees, shelter and food for the birds, they provide shade too, and natural beauty for humans. They are an essential part of our local visual landscape and provide shade in the garden too. They have grown here naturally for many years and we all enjoy them every day. Felling them would alter the landscape considerably, and would cause harm to the fragile ecosystem of our back gardens. I implore Camden to prevent these trees from being felled. I do not understand why they should be felled, and why this should be allowed. It would be so wrong. Please help us save these beautiful trees from destruction. Thank you.
2021/1940/T	m green	04/05/2021 17:26:53	POLICY	object strongly to the felling of the oak and cherry trees on this application. shading is not a good reason for felling these trees within the conservation area! The community value, of these external green habitats provide screening between set of back to back gardens and maintain a green corridor for bio-diversity and must be retained.
