Dear Sir/Madam

**DECISION**

Planning (Listed Building and Conservation Areas) Act 1990

**Listed Building Consent Granted**

Address:  
**10 Park Village East  
London  
NW1 7PX**

Proposal:  
Installation of temporary internal secondary glazing to one window and two mechanical ventilation units for noise mitigation works during construction of the HS2 railway.

Drawing Nos: 1EW02-CSJ-GI-MAP-SS01-000024; WPI P066 NI - 10 PVE-EX-GF-J-02 Rev 2.0; WPI P066 NI - 10 PVE-PR-GF-J-02.1 Rev 2.0; WPI P066 NI - 10 PVE-PR-GF-J-02.2 Rev 2.0; WPI P066 NI - 10 PVE-EX-FF-J-03 Rev 2.0; WPI P066 NI - 10 PVE-PR-FF-J-03.1 Rev 2.0; WPI P066 NI - 10 PVE-EX-EL-01 rev 1.0; WPI P066 NI-10 PVE-EX-EL-02 Rev 1.0; Sonair Acoustic (sound attenuating) filtered air supply units; SONAIR MOUNTING DETAIL; Specification Sheet - Ciab9x6-2018/2; Design Statement, Heritage Statement and Statement of Justification 10 Park Village East, Regents Park, London Revision: P01

The Council has considered your application and decided to grant Listed Building Consent subject to the following condition(s):

**Conditions And Reasons:**

- 1 The works hereby permitted shall be begun not later than the end of three years from the date of this consent.

Reason: In order to comply with the provisions of Section 18 of the Planning (Listed Buildings and Conservation Areas) Act 1990.

- 2 The development hereby permitted shall be carried out in accordance with the following approved plans:

1EW02-CSJ-GI-MAP-SS01-000024; WPI P066 NI - 10 PVE-EX-GF-J-02 Rev 2.0; WPI P066 NI - 10 PVE-PR-GF-J-02.1 Rev 2.0; WPI P066 NI - 10 PVE-PR-GF-J-02.2 Rev 2.0; WPI P066 NI - 10 PVE-EX-FF-J-03 Rev 2.0; WPI P066 NI - 10 PVE-PR-FF-J-03.1 Rev 2.0; WPI P066 NI - 10 PVE-EX-EL-01 rev 1.0; WPI P066 NI-10 PVE-EX-EL-02 Rev 1.0; Sonair Acoustic (sound attenuating) filtered air supply units; SONAIR MOUNTING DETAIL; Specification Sheet - Ciab9x6-2018/2; Design Statement, Heritage Statement and Statement of Justification 10 Park Village East, Regents Park, London Revision: P01

Reason: In order to safeguard the special architectural and historic interest of the building in accordance with the requirements of policy D2 of the Camden Local Plan 2017.

- 3 All new work and work of making good shall be carried out to match the existing adjacent work as closely as possible in materials and detailed execution.

Reason: In order to safeguard the special architectural and historic interest of the building in accordance with the requirements of policy D2 of the Camden Local Plan 2017.

- 4 The external metal grilles serving the mechanical ventilation units at shall have their outer faces fitted flush with the external wall finish.

Reason: In order to safeguard the special architectural and historic interest of the building in accordance with the requirements of policy D2 of the Camden Local Plan 2017.

- 5 The works hereby approved are for a temporary period only and shall be removed from the property, and the affected historic fabric reinstated to its pre-installation condition and made good using sensitive repair techniques using materials and techniques to match the existing building, within 6 months of the HS2 noisy works period ending, for which they are required.

Reason: The type of works are not such as the local planning authority is prepared to approve, other than in exceptional circumstances and for the limited period required, in view of their appearance and their impact on the special interest of the listed building. The permanent retention of the works would be contrary to the requirements of policy D1 and D2 of the London Borough of Camden Local Plan 2017.

Informative(s):

- 1 Your proposals may be subject to control under the Building Regulations and/or the London Buildings Acts that cover aspects including fire and

emergency escape, access and facilities for people with disabilities and sound insulation between dwellings. You are advised to consult the Council's Building Control Service, Camden Town Hall, Judd St, Kings Cross, London NW1 2QS (tel: 020-7974 6941).

- 2 You are advised that any works of alterations or upgrading not included on the approved drawings which are required to satisfy Building Regulations or Fire Certification may require a further application for listed building consent.
- 3 Noise from demolition and construction works is subject to control under the Control of Pollution Act 1974. You must carry out any building works that can be heard at the boundary of the site only between 08.00 and 18.00 hours Monday to Friday and 08.00 to 13.00 on Saturday and not at all on Sundays and Public Holidays. You are advised to consult the Council's Noise and Licensing Enforcement Team, Camden Town Hall, Judd St, Kings Cross, London NW1 2QS (Tel. No. 020 7974 4444 or search for 'environmental health' on the Camden website or seek prior approval under Section 61 of the Act if you anticipate any difficulty in carrying out construction other than within the hours stated above.
- 4 This approval does not authorise the use of the public highway. Any requirement to use the public highway, such as for hoardings, temporary road closures and suspension of parking bays, will be subject to approval of relevant licence from the Council's Streetworks Authorisations & Compliance Team London Borough of Camden 5 Pancras Square c/o Town Hall, Judd Street London WC1H 9JE (Tel. No 020 7974 4444) . Licences and authorisations need to be sought in advance of proposed works. Where development is subject to a Construction Management Plan (through a requirement in a S106 agreement), no licence or authorisation will be granted until the Construction Management Plan is approved by the Council.
- 5 All works should be conducted in accordance with the Camden Minimum Requirements - a copy is available on the Council's website at <https://beta.camden.gov.uk/documents/20142/1269042/Camden+Minimum+Requirements+%281%29.pdf/bb2cd0a2-88b1-aa6d-61f9-525ca0f71319> or contact the Council's Noise and Licensing Enforcement Team, 5 Pancras Square c/o Town Hall, Judd Street London WC1H 9JE (Tel. No. 020 7974 4444)

Noise from demolition and construction works is subject to control under the Control of Pollution Act 1974. You must carry out any building works that can be heard at the boundary of the site only between 08.00 and 18.00 hours Monday to Friday and 08.00 to 13.00 on Saturday and not at all on Sundays and Public Holidays. You must secure the approval of the Council's Noise and Licensing Enforcement Team prior to undertaking such activities outside these hours.

- 6 Reasons for granting listed building consent:

This application seeks consent for the installation of temporary internal secondary glazing to one window to the front elevation and two mechanical ventilation units on the north elevation of the property for noise mitigation

during construction of the HS2 railway at Euston. A previous application in 2018 approved to secondary glazing to three other windows on the front elevation.

The application property is a grade II\* listed single family dwellinghouse situated on the west side of Park Village East, within the Regent's Park Conservation Area. A few metres to the east of the property is the West Coast Main Line railway cutting, which forms part of the proposed route of the High Speed 2 railway. The property is one of a picturesque series of twelve residential villas of varying styles dating from 1825-36, which were designed and laid out by John Nash and his assistants for the Commissioners of Woods, Forests and Land Revenues. The application property comprises a semi-detached two-storey house raised on a basement, with sash windows and a stuccoed finish, and set in generous grounds with a small front garden.

The proposed works are intended to meet the functional requirements of reducing noise within the residential property, whilst minimising the impact on the significance of the heritage asset and minimising inconvenience to the residents.

The secondary glazing will be manufactured with powder-coated aluminium frames and sheets of 6.4 mm laminated glass for enhanced acoustic attenuation. The unit will be installed internally to a single window to the front elevation at ground floor level. It will be installed onto a timber sub-frame which is fixed to the existing wall surface or window reveal using wood screws for reversibility. The existing windows will remain operable, and there will be minimal impact on historic fabric due to the reversible nature of the installation.

The proposed secondary glazing is a revision to the approved scheme from 2018. Previously the glazing was set back 100mm from the primary window whereas in this proposal it is fixed immediately behind it. This will be an improvement on the approved scheme as it will reduce the external impact as well as allow the internal shutters to be operable.

The proposals include input ventilation by means of the installation just above floor level of a mechanical input fan unit specified as the Sonair F+ device (manufactured by Titan or similar) at all floor levels. The units will be electrically-powered with push button controls to control the volume of air within the room interior, with ventilation rates adjustable from 28-225 cubic metres/hour.

It will require a 106mm hole to be drilled through the external wall. Cut lines will be confined to bedding joints where possible to minimise impact to the fabric of the wall and to facilitate re-insertion of bricks after the unit is removed. As few bricks as possible will be carefully removed from the wall to allow insertion of a cast iron grille measuring 228 x 153mm fitted flush with the external wall, which will conceal the duct from the fan unit. In order to minimise visual impact, the external grilles will be located discreetly on the side elevation and coloured to match the stucco to minimise their impact.

A condition of this consent requires that, on completion of the HS2 construction

works, the secondary glazing will be removed from the property and the affected historic fabric reinstated to its pre-installation condition and made good using sensitive repair techniques. Fixings will be carefully removed to prevent damage to joinery and plasterwork. Fixing holes in the existing timber joinery will be filled with a good quality wood filler and finished flush with the surrounding joinery surface. The internal face of the existing window joinery will then be redecorated to match the existing colour.

Public consultation was undertaken for this application by means of a press notice and a site notice, whereby no responses were received. Regent's Park CAAC was consulted and raised no objection but requested a condition to ensure that the reflectivity of the glass is not a problem in external views as well as suggesting that the out frame of the secondary glazing is coloured to minimise its visibility.

The secondary glazing units used on other properties affected by HS2 works are similar to those proposed here and have been found to have a low reflective impact. Also in this case the secondary glazing is fitted close up to the primary window (usually there is a 100mm air gap) so as a result there will only be minimal reflections. The frames themselves are coloured to match the adjoining timber which is white and will mean that it will have as minimal impact as possible. Therefore, the detail included within the application is considered to cover the CAACs comment in this instance.

Historic England was consulted and responded with a signed and stamped letter from the National Planning Casework Unit on authorising the Council to determine to the application as it sees fit.

The proposed secondary glazing and mechanical ventilation proposed will cause less than substantial harm (para 196 of the NPPF) to the special interest of the listed building. This level of harm has been reduced to the minimum possible and the works will be removed when no longer required. Great weight is given the special interest of the listed building but this is balanced with the public benefit of keeping the building occupied and in residential use (it's optimal viable use) during lengthy HS2 construction works. In this case the public benefits of the scheme outweigh the limited amount of reversible harm which is proposed and therefore it is recommended that the application is approved.

The site's planning history was taken into account when arriving at this decision.

Special regard has been attached to the desirability of preserving the listed building and its features of special architectural or historic interest, under s.16 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

As such, the proposal is in general accordance with policies D1 and D2 of the Camden Local Plan 2017. The proposed development also accords with the London Plan 2021 and the National Planning Policy Framework.

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with paragraph 38 of the National Planning Policy Framework 2019.
