PLAN

Proposed_Kitchen

ELEVATION 4

It is proposed to move the kitchen from its current inappropriate location within the double-height space into its original position under the gallery.

The new kitchen is proposed to pay tribute to the original Poggenpohl design in terms of character, colours and finishes, as the existing is far removed from that original design concept.

All cupboard and drawer fronts are to be finished in Opal grey matt, a surface similar to the original and no longer in situ melamine facing material.

The countertops are to be made out of 20mm thick Unistone Naxos Quartz, a more suitable and durable material than the existing and non-original mix of marble and wood finishes. The splashback is proposed to be made of light grey back painted glass, to be as unobtrusive as possible and to blend in with the other kitchen finishes.

Please refer to drawing GUW09-041 for sample photographs of the proposed finishes.
