2021/1940/T	Mr. Knight	13/05/2021 13:10:20	SUPPRT	<p>In the last couple of years many additional trees were planted in our and the immediate neighbour's gardens benefiting the environment such as:</p> <p>5 no. Evergreen Holm Oak (Quercus ilex).</p> <p>10 no. Various trees</p> <p>~ 12 no. Bushes and hedges</p> <p>> 20 no. Flower bushes</p> <p>There are already ~15 mature trees in the garden or surrounding 20m which are dominating the area and stifling growth due to preventing light. These are in addition to many other trees over 10m high.</p> <p>Contrary to suggestions within responses to application 2021/1940/T it makes no request to fell oak or maple trees.</p>
