Informative(s):

1

The site is a top floor flat within a converted, grade II listed, early 19th century villa, built in Italianate style. The list description states that the 20th century extension, where the external staircase is located, is not of special interest. The proposals are for a replacement fire escape staircase, which is used for garden access from Flat 4 with a spiral staircase by Elite Spiral Staircases. The proposal involves reconfiguration of the existing dilapidated staircase, which will improve the elevation, i.e. the new spiral vertical element will not be cutting across the ground floor window. Therefore, the proposals are an improvement on the existing position and configuration.

No objections have been received. The site's planning history has been taken into account when making this decision

Special regard has been attached to the desirability of preserving the listed building and its features of special architectural or historic interest, under s.16 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

As such, the proposal is in general accordance with policies D1 and D2 of the Camden Local Plan 2017. The proposed development also accords with the London Plan 2016 and the National Planning Policy Framework.
