Why is it necessary to demolish all or part of the building(s) and/or structure(s)?

The existing structure comprises clay tiles on cross batons and timber rafters onto 215 wide brickwork walls on spread foundations with a ground bearing floor slab. From a visual inspection at the site, the room timbers have decayed due to extensive water ingress and the three external walls comprise a multitude of structural defects.

The external walls are visibly bowing outwards and comprise significant cracking, approximately 30mm wide in places, indicative of inadequate footings and ongoing movement.

The external walls and roof are therefore in an unsafe condition. Please refer to the attached photographs.
