2021/2559/T	S. Nix	25/05/2021 07:53:16	COMMNT	As it seems there is nothing to prevent this tree from being felled, is it possible to plant a smaller tree after the suggested waiting time mentioned in the report (points 5.6 and 5.7)? Also, if the wall is replaced after the period of a year as recommended, would it be possible to install some kind of wall that would not be sitting directly on the ground, i.e. raised in some way so that it would be less susceptible to damage? I'm thinking of something more like a fence arrangement, although with a heavy material.
