Date of consultation: 22 December 2009

Proposal: Erection of a mansard roof with dormer windows and front terrace to create one new self-contained flat, conversion of existing second floor flat into two self-contained flats, replacement of all windows by double glazed ones and minor alterations to the ground floor street entrance

The host building is of a style that would make the addition of a mansard rather incongruous. In addition the mansard would extend the row of existing (and regrettable) mansards further along the street.
