2021/1782/P	Carolyn Freeland	03/06/2021 20:44:52	OBJ	As residents of the mews we object to the construction of additional stories to 15 Fitzroy Mews. This is a very quiet and residential street and the construction would be a major disruption to quality of life, especially as many of us are now permanently working from home post-pandemic.
2021/1782/P	Heather Spalding	03/06/2021 19:38:51	PETITNOBJ E	The proposed planning application would result in our flat being both overlooked and the light being blocked! I therefore strongly oppose the additional of the floor on top of 15 Fitzroy Mews. With the addition of roughly 80 flats being built at 101 Cleveland street it does not appear as though we need more residential dwellings at present and after over a year of building work the area could do with a break.
2021/1782/P	Luca Basilico	03/06/2021 21:13:06	OBJ	I strongly object to the extension application for 15 Fitzroy Mews. The building in question is directly opposite my residence and overlooks our home, potentially causing loss of privacy and light. It will no doubt be extremely disruptive to the residents of this very quiet and neighborly block. I work from home permanently post-Covid and the construction work and noise would be very detrimental to my quality of life. Additionally, adding additional height to the building would be very out of character to the rest of the area.
