Informative(s):

- 1 The site is a second-floor flat within a grade-I-listed palatially composed townhouse by Nash of 1827 making a positive contribution to the Regent's Park Conservation Area. It was substantially internally rebuilt in the 1960s behind a retained façade and the flat in question spans three house widths.

The applicant wishes to reorder internal partitions. The material involved is largely modern and the works are not considered harmful.

Any works other than those specifically mentioned in the consented documents are unauthorised. If further works are found to be needed, the permission of the council's conservation team must be obtained in writing, or further listed building consent may be required.

The proposed works will not harm the special interest of the grade-I-listed building.

The application has been advertised in the press and by means of a site notice, whereby there were no consultation responses. Historic England has issued a letter of flexible authority ratified by the secretary of state. The site's planning history has been taken into account in making this decision.

Special attention has been paid to the desirability of preserving the special interest of the listed building, under s.16 of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013

As such, the proposal is in general accordance with policy D2 of the Camden Local Plan 2017. The proposed development also accords with the London Plan 2021 and the NPPF.
