2021/1982/P       John Chamberlain       04/06/2021 14:55:26       COMMNT       Planning Application 2021/1982/P - 5A Agar Place         Comments from Camden Cycling Campaign       We represent the interests of cyclists living or working in or travelling through the Borough of Camden. We have no comments about the design of the proposed development but we are concerned about the construction impact on the adjacent roads.         Agar Place forms a quiet link between the cycle track leading to and from Stratford Villas and the protected cycle lanes on St Pancras Way and Royal College Street. In addition, there is a cycle lane on Agar Grove in front of the development site. It is important that the safety of cyclists should not be compromised and this should be reflected in the CMP when it is produced.
