2021/2472/P	John Chamberlain	05/06/2021 09:36:02	COMMIT	<p>Planning Application 2021/2472/P & 150 Royal College Street</p> <p>Comments from Camden Cycling Campaign</p> <p>We represent the interests of cyclists living or working in or travelling through the Borough of Camden and we are concerned about the construction impact on the very busy cycle tracks on Royal College Street.</p> <p>The current access to the site is narrow, we note that the developer states that it is suitable for a panel van but nothing larger. We therefore assume that most of the deliveries during construction will have to be made from the highway, which is likely to have a significant impact on the southbound cycle lane. As this is a contraflow lane there is no possibility of diverting cyclists into the main carriageway during deliveries.</p> <p>We note that no CMP is included in the planning application, when the CMP is prepared it is essential that it addresses our concerns and is available for consultation.</p> <p>John Chamberlain Camden Cycling Campaign 4th June 2021 [REDACTED]</p>
