Subject: Application Reference: 2021/2575/T - Potential Felling of a Willow Tree, 1 Belsize Park

Dear Sir Madam,

I would like to object against the proposal to fell a Willow Tree at 1 Belsize Park. I am a visitor to Belsize Park and greatly admire this tree for its aesthetics and valuable contribution to the environment.

The tree is making a significant contribution to the fauna of Belsize Park being one of the first trees visible as you enter Belsize Park.

The tree is contributing Oxygen into the atmosphere. We need trees to balance the increasing CO₂ in the atmosphere causing global warming and consequential global warming

The tree is providing perch for birds.

The tree could easily be managed to retain for nature and environment and the good of all.

David
