Dear Elizabeth Beaumont

I strongly object to the proposed erection of a 5G mast in a residential/conservation area, close to mature trees in a Royal Park ie Primrose Hill

I have already written to Camden asking for details of an impact assessment on residents and vegetation and have received no reply

I would suggest that putting up this mast in any residential area is a Health and Safety risk (assessment imperative) especially if it is moved to another part of Primrose Hill/Camden most of which is densely populated

I look forward to receiving your reply
