Water Comments

Thank you for consulting Thames Water for the discharge of matters relating to water networks. Thames Water confirm that they are happy for the water networks condition referenced, to be discharged based on the information submitted.

Supplementary Comments

TW agree to discharge condition 28, as the impact of this development has been assessed. Thames Water must be kept informed of any changes to design – for example, a further increase in development. Such changes could mean there is no longer sufficient supply capacity.

Yours faithfully
Development Planning Department
