Dear All

Please could you review your plans to locate a 5G mast in a prominent position on Regent's Park Road, on the hill side and opposite listed buildings.

I think it would be an eyesore there and that there are far more suitable sites in the near locality to choose from.

I wonder if a far shorter mast on top of the tall flats (Hill View) overlooking the hill would give a wider range to the signals. Alternatively the mast could be located on the corner of St Edmund's Terrace where visually it would blend in more easily with the adjacent buildings.

Yours sincerely

John D Emanuel
20, Regent's Park Road,
