2021/1997/P	Irma Zeff	09/06/2021 10:22:58	OBJ	<p>I am resident of Flat 2, I also own a share of the freehold.</p> <p>It is my balcony which overlooks the area the in question and the proposed building would be erected immediately below my balcony. I strongly oppose this plan as it would directly impact my current aspect from my stairwell which I use as well as affecting my balcony with respect to its aspect and view. The building is sited within a preservation area, I have lived here for over 30 years and feel strongly that the heritage of the area ought to be protected.</p> <p>I was very surprised this application as given its proximity and connection with my property, I was not consulted in any way prior to its application. Moreover, to my knowledge non of the other directors of the company were consulted prior to filing.</p> <p>I would also note that a previous application granted over my objection has failed to comply with its planning with respect to its use.</p>
