Subject: Planning Application for Glebe House, Fitzroy Mews (Application ref. 2021/1782/P) - Objection

Dear Sir/Madam,

We are writing to you to express our objection to the planning application for the erection of an additional storey to create a residential dwelling at Glebe House, and other alterations in the same building.

The extension of the building will impact on the general character of the Fitzroy Square conservation area and the historical charm of the Fitzroy Square. Our building faces Fitzroy Square, and the back of the building faces the Glebe House. Accepting the extension would not just cause a loss of daylight and sunshine to our building, it would also be reducing our privacy as the proposed extension looks directly into our building.

In addition, we are concerned about disturbance due to construction. The work will be taking place directly across from our office, with the noise-causing substantial impact to our working conditions, and the added traffic and congestion on the streets causing significant impact to local noise and pollution levels, not to mention the safety of local residents and pedestrians.

We would appreciate your consideration in objecting to the application to the extension of Glebe House additional floor.

Yours faithfully,

Joe Appleby  
28 Fitzroy Square
