2021/0175/P	Eden Carmichael	13/06/2021 16:24:37	OBJ	I object to planning permission being granted because moving the living and kitchen quarters to the back of the property will mean there is much more activity there than presently. This will create a lot more noise and, as my bedroom is at the back of the building, will be much noisier for me. It is a very noisy area already and this will impinge on me immensely.
2021/0175/P	rR Wright	12/06/2021 16:21:21	OBJ	<p>I would like my view on the proposed building alterations to be taken into account as I feel that the change from living arrangement to kitchen dining room to back of house and opening up the garden area will lead to noise disturbance for all residents living in this area. Over the past years the back of these properties have had alterations and extensions with have lead to people who live in the area finding it very hard to get any peace all hours of the day and night, due to short term tenants and holiday lets where people only want to stay up late and party all night.</p> <p>At present the area is enclosed limiting noise but with the open plan design that is proposed it will encourage the tenants to live in the back of the house and spend more time in the garden/ balcony area which will create excessive noise, for all the people who currently have to try and sleep at the back of these properties. We are already getting noise disturbance from the balconies at this property which can be until the early hours of the morning.</p> <p>My bedroom is at the back of this area and so are many other peoples. There is already a noise problem at the back of this property I feel this will be adding to it.</p>
