2021/0686/P	Alan Wong	14/06/2021 11:10:52	INT	We reside in 217 next door and being the immediate neighbour to the property in question, we are naturally concerned about both the inconvenience and length of time we will have to put up with the construction works but we are also particularly concerned about the proposed excavation work - how it will affect the structural integrity of our building and how we can ensure that we are properly advised and obtain professional advice, at the expense of the applicant, on any potential damage/effect/subsidence the proposed work will have for us.
