Subject: Telecom mast and equipment at Weech Hall Fortune Green Road NW6

Follow Up Flag: Follow up
Flag Status: Flagged

Dear Matthew

I have left you a voicemail message, but just in case I thought I would follow up.

The application re the Mast has agitated a number of local residents some of whom want to know when this will be decided and I would be grateful if you can give me any indication of the possible timetable for your recommendations.

In the meantime, I would also like to register my objections to this application on grounds of its size and appearance which will have a huge impact on the local neighbourhood (particularly on the block of social housing apartments directly opposite. Because of the fact that Fortune Green Road is on a hill the mast will be over dominant in the area and be particularly visible from Hampstead Cemetery almost immediately opposite. While this area as a whole is not a CA, the Cemetery has a special status almost equivalent to a CA.

I concur with local residents who have expressed this view and confirm my objection

Yours

Flick Rea(Councillor for Fortune Green)
