

Dear Matthew,

Further to my telephone conversation on Friday, I would like to object to the above development on the grounds.....It is NOT in keeping with our listed building and does NOT fit aesthetically with the in any way, this would be a real "EYE SORE" which does not lend itself to this kind of building.

I would also like to point out the other residents have to suffer the noise, dust, rats/mice general disruption if this building commences.

Kind regards

Barry and Roz Seigler
