2021/2873/P	Jonathan Byatt	24/06/2021 13:16:17	SUPC	<p>Support and Request: This is a welcome addition to the Stables market in that it reinforces the history of the area in a tangible form for visitors to the area around the Horse Hospital.</p> <p>A request, after the year of display is completed, can the providers of the installation please consider re-use of the horse sculptures within South End Green (NW3) area. This area also has a long connection with horse traffic being a stop over point where horses rested and drank from the pond (where SEG fountain now stands) before re-commencing their trip to London. In this way the art work can be doubly powerful through re-use and Camden can gain an additional attraction for tourists within its boundaries.</p>
