2021/1748/P	Colm Fitzgerald	26/06/2021 19:26:24	NOBJ	While we do not object to the development in principle, we would like to know what measures will be taken to ensure this work and development does not cause disturbance to neighbouring properties specifically; 1)noise/drilling 2)dust 3) flying debris. On point 3, the property we rent at 8a Iverson Road has a perspex roofed back room which has been hit extensively by falling rubble from previous work from various properties at 10 Iverson Road, and this needs to not happen again. We do not have any comments on the nature of this development otherwise.
2021/1748/P	Jeremy Moorshead	25/06/2021 19:28:40	OBJ	As immediate neighbours living on the top floor of number 8 Iverson Rd, we object to this planning application. There has already been constructed a roof and guttering inspection area with an ugly railing, which covers the entire area of the flat roof. This area overlooks our bedroom and bathroom. The ongoing construction of this area (during lockdown) while some of us were trying to work from home was disturbing, although the applicant was apologetic. We feel the development of this dormer and terrace would block even more daylight to our property, and any entertaining on the terrace would be invasive to our privacy, especially if there was extra lighting installed.
