Mr David Fowler

Applications

Camden
Selkirk House

Cher Oloson.

I came here in Wst Central
street (museum street)
when I came from
Paris- (dec 2009). It was
already a disaster
with the night club
open 24/24.
Then we had all
the drug dealers.
-- / --

And now the developer
who already owns
Camden Market wants
to demolish all my
area.

I am old now and the
building which will
be built next to my
window will prevent
me from having
light.

Do you want me to

[redacted] of [redacted]
and you can imagine
when I shall not
be able to walk
outside

Our little building
is going to suffer
and we pay as
much as the
others -

But of course big
developers are the
ones who govern
this town and
now Camden -

Big money.

My french grand father
was a politician
and a socialist -
He would be horrified.

Please be a good
Councillor and
think of those
who pay their council
tax
