

Dear Team,

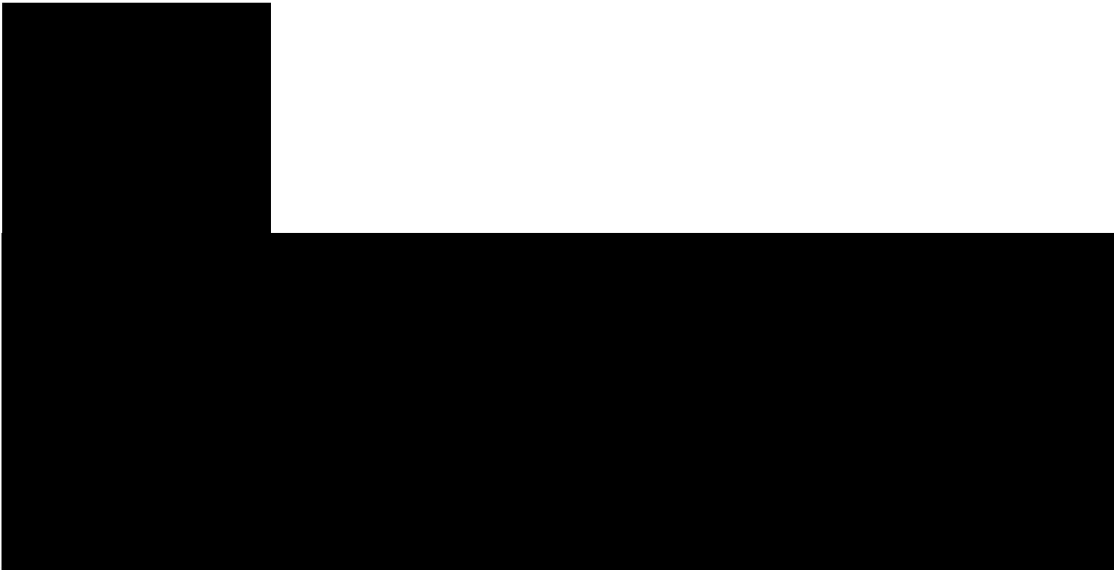

An objection to the planning application at 368-372 Finchley Road.

We will deal with the licensing elements of the objection.

Regards

Shelima Ahsan  
Customer Service Officer

Sorry I do apologise, I wish to object to both the licence application AND the change of use. In fact, I'd say my primary objection is to the change of use application. Apologies for the confusion.

I and 6+ other residents have spent all day trying to object to the change of use application for 368 to 372 Finchley Road, London, NW3 7AJ, but every time we do, all on different devices, we get error messages and cannot submit comments.

I'm sorry to say this, but the website and the function to submit a comment is frankly not fit for use, and it would frankly be unjust for the planning committee not have have before them the comments of residents because of the quality of the website.

Can I ask what you suggest if none of us can submit comments online? Shall we all email the planning committee email? If so, will we get an assurance that the comments will be uploaded and be put before the decision makers.

I'm really not trying to be difficult, but there are a number of residents who feel very strongly in their opposition to this application.

Best wishes,

Sam McNeil
